ILLEGIB

MEMORANDUM FOR: The Comptroller

SUBJECT : Hoover Commission Report on Business Enterprises

REFERENCE : A. Business Enterprises (A Report to Congress, May 1955)
B. Instruction from SA/DDS requesting comment be forwarded regarding items of primary interest to the Office of Logistics in A above.

1. The only item in reference A above of primary interest to the Office of Logistics relates to our printing function. Recommendation No. 19 stipulates that the Bureau of the Budget study the feasibility of a central control of executive department printing plants . . . . .

2. Office of Logistics' position is that our printing facilities should not be included in such a study for security reasons. A central control, as suggested, over our printing plant would undoubtedly compromise security and hamper the expeditious processing of intelligence materials affecting our national security.
